

INTRA WORKOUT MUSCLE SUPPORT

- 350% More Anabolic Activity
- Optimal BCAAs Ratio 45:30:25
- No Fillers, Zero Non-BCAA Aminos, Sugar-Free

Instantized BCAAs

AMINOCORE has a whopping 8,180 mg of BCAAs! That's right, over 8 grams of BCAAs in a single serving. Perfect for consumption during your workout to drive up anabolic impact, or away from the gym when you can't get your protein in and you need to prevent the catabolic breakdown of muscle tissue and increase protein synthesis.

BCAAs (Branched Chain Amino Acids - Leucine, Valine and Isoleucine) are one of the most effective supplements you can buy. BCAAs improve and maintain your muscle tone like nothing else. Having more muscle than fat creates the most ideal physical shape. A greater degree of lean muscle mass elevates your metabolism and in doing so can increase the rate at which you burn through calories.
