

# CREATINE HCL

- 60% Greater Creatine Absorption\*
- Improved Muscle Performance\*
- 2.25 g Pure Creatine HCL<sup>†</sup>

## Creatine Hydrochloride

ALLMAX Creatine Hydrochloric Acid (HCL) offers a convenient way to enhance your performance in 750 mg capsules. Creatine HCL is a pharmaceutically-inspired delivery form that combines Creatine with Hydrochloric Acid to create a Creatine salt with an exceptional solubility profile.

A study published in the Journal of Dietary Supplements reported that Creatine HCL is 38X more soluble than Creatine Monohydrate [1]. Increased solubility is closely associated with better muscle uptake.

ALLMAX Creatine HCL capsules promote higher absorption, improved strength, and enhanced performance, without the need for a loading phase and with reduced water retention.\*

### Supplement Facts

Serving Size 1 Capsule  
Servings Per Container 90

Amount Per Serving % Daily Value

Creatine HCl (*Hydrochloride*) 750 mg †

† Daily Value not established.

**OTHER INGREDIENTS:** Vegan Caps (Hypromellose), Magnesium Stearate (vegetable source).
