

LIQUID L-CARNITINE 1500

- Helps Support Fat Metabolism and Oxidation*
- Improves Physical Performance*
- Support Muscle Repair and Recovery*

CARB FREE
SUGAR FREE
CALORIE FREE

Stimulant-Free Fat Metabolizer

A delicious and easy way to get your L-Carnitine Liquid in an ultra-convenient liquid form with 1,500 mg per serving. L-Carnitine is essential for transporting long-chain fats into the cell (mitochondria). L-Carnitine taps into your fat supply and may provide support to burn it as fuel, resulting in increased energy. Without L-Carnitine, these fats cannot be burned for energy and are instead shunted to stored body fat.*

L-Carnitine enhances performance by increasing the body's reliance on fat for energy; this reduces depletion of muscle glycogen. By reducing muscle tissue lactic acid build-up, performance athletes using L-Carnitine can extend duration of muscular exertion before fatigue.*

L-Carnitine functions in conjunction with pantothenic acid (Vitamin B5). Vitamin B5 is a fundamental component of coenzyme A (coA) which is involved in the transport of fatty acids into the mitochondria making it an essential component of L-Carnitine supplementation.*
